

HYBRID WATER MELON

WM 805 F1

A very vigorous crimson sweet type hybrid, WM 805 produces extra large sized watermelons which have very nice rind color. Stripes are dark green and rather broad. Oval fruits can weigh 14-16 kilos and under ideal conditions can reach much higher weights. WM 805 has medium thick rind of excellent quality and is suitable for shipping. Flesh is deep crimson, crisp and very sweet.

- Vigorous hybrid with good canopy cover
- Attractive large fruits
- Very good interior quality
